Date: 6 November 2020

Dear Parent/Carer

As you are aware, schools are required to have a remote learning plan in place to ensure your child does not miss out on their learning due to COVID-19. This letter will explain how your child will access their education should the school, or Public Health England, direct your child to isolate.

### **For children who need to isolate as part of whole-class or year group isolation**

Classwork will be uploaded to your child's Google Classroom. This work may take a variety of forms, but the class teacher will provide guidance. The majority of the lessons will be pre-recorded by the class teacher where explanations of the work will be given. Once submitted, work will be marked, and feedback given.

Your child will be expected to complete between 3 - 4 hours of home learning each day. Your child will be able to contact their class teacher during their timetabled lesson for guidance or more work.

### **For children who are individually isolating**

The class teacher will upload relevant work which is currently being covered in class. Please appreciate that teachers will be focused on their classes who are in school and will respond to any queries or requests for support as soon as they are able.

Should you need further advice on how to access Google Classroom, please visit our school website or click on this [link](#).

If your child does not have access to a device or adequate internet, please contact the school office where we will arrange for a printed pack of work to be sent to your home.

I want to take this opportunity to thank all our parents and carers for your support. Should you have any further queries, please do get in touch with the school.

Yours faithfully

Ms Y Peden  
Headteacher
